

KING ASKS PROBE OF JET NOISE

Congressman Cecil R. King of Florida today called for a full scale investigation of the jet aircraft noise problem by submitting a resolution to the House of Representatives Interstate and Foreign Commerce Committee to "conduct a full and complete investigation and study of the noise level created by jet aircraft engines."

King stated that the congressional probe "would determine what standards, if any, of noise tolerability should be established by Federal legislation for the protection of persons on the ground, particularly those persons in the vicinity of airports, affected by the noise level of aircraft."

The King resolution which calls for a full report to the House "as soon as practicable during the present Congress" has been referred to the Committee on Rules for action.

Church School Holding Dinner Benefit Tonight

A spaghetti dinner with the proceeds going to a building fund to complete a new unit now under construction has been scheduled this evening at the Harbor City Christian School, 840 W. 255th St., between 5 and 8 o'clock.

Completion of the new unit will permit the school to accommodate at least 250 more students, according to the Rev. Marion Plies, pastor of the Church and principal of the school.

The dinner is open to the public, and tickets will be on sale at the door, the Rev. Plies said.

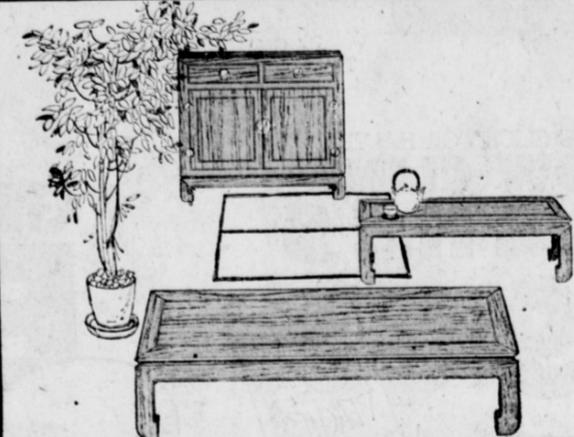

Presentation of the annual Easter program at the church is now being planned by the junior high and high school students. The program will include a three-act play and special Easter music by the "Melody Maids" between acts.

Chaplain to Visit Men's Fellowship

The Men's Fellowship Group from Calvary Community Church of Torrance will have their regular monthly meeting on Saturday, March 11, at 6:30 p.m. Following the dinner, the Rev. John Penner, chaplain from Harbor General Hospital, will tell of some of his experiences during the Russian Revolution and his hospital ministry.

The Rev. Mr. Penner, a native of Russia, recently returned from an evangelistic tour of Europe.
